Profile Summary

Full-stack and AI engineer specializing in production web, mobile, and AI systems. Hands-on experience architecting RAG pipelines with Supabase pgvector, integrating LLM APIs, and engineering cross-platform mobile applications in React Native and Flutter. Founder of Velaar (AI EdTech copilot) and creator of Handwrite (180+ organic users).

Technical Skills

Core Engineering Stack: React, Next.js, React Native, TypeScript, Python, Node.js, Express, Supabase (pgvector), PostgreSQL, Firebase

Tools & Frameworks: Flutter, Dart, Tailwind CSS, REST APIs, Git/GitHub, Docker, Redis, Google Cloud, MySQL, C/C++, Java, WordPress

Professional Experience

SunMac Solar (Ecomac Energy Pty Ltd) [Offer Letter] *Founder's Office Intern | Sep 2026 – Present*

- Direct operational software development in the Founder's Office for an Australian commercial solar energy provider.
- Architected an AI Lead Intelligence platform orchestrating business discovery via ABN Lookup, rooftop solar detection via Google Maps satellite imagery, lead enrichment, and Supabase pgvector semantic search to generate tailored cold outreach emails.
- Spearheaded the redesign and deployment of the SunMac Solar web platform (*sunmacsolar.com.au*) with Next.js, optimizing page load performance by 45%, mobile responsiveness, and commercial SEO.

Optisoft Vision [Recommendation Letter] *React JS Software Developer | Jun 2024 – Aug 2024*

- Engineered and refactored 12+ modular React/Vite components across EyeCloud, Lensoui, and HelpHub web portals.
- Integrated REST APIs with asynchronous state caching and error boundaries, eliminating UI render lag and data synchronization issues.
- Resolved 25+ cross-browser compatibility defects and shipped production patches across structured agile sprint cycles.

Vinayak Soft Solutions [Recommendation Letter] *App Developer Intern | Nov 2024 – Mar 2025*

- Developed cross-platform mobile apps in React Native and Expo, including an offline-first restaurant POS system processing 200+ daily table orders.
- Constructed a real-time analytics dashboard tracking daily sales, inventory levels, and operational metrics for 15+ local retail businesses.

WebGyor Technologies [Recommendation Letter] *WordPress Developer | Jun 2022 – Aug 2022*

- Programmed responsive client web portals (Portfolio Analyst, Employee Track) managing 500+ records; reduced page load times by 35% via caching and asset delivery optimizations.

Ayika Foundation [Offer Letter] *IT Intern | Aug 2022 – Aug 2023*

- Administered digital infrastructure and streamlined content distribution workflows for environmental campaigns reaching 10,000+ active participants.

Technical Projects

Velaar – AI Educational Platform *Live Demo | Jan 2025 – Present*

- Implemented an AI teaching assistant using Gemini 1.5 Pro and a Supabase pgvector RAG pipeline to generate syllabus-grounded lesson plans and Bloom's taxonomy assessments with streaming responses under 1.8 seconds.
- Designed a Topic-to-PowerPoint slide generator cutting lesson prep time by 70%, and a real-time QR attendance verification system validating 100+ students in under 30 seconds with role-based JWT auth.

Hasslefree Drive – On-Demand Driver Booking App *Live Site | Aug 2024 – Present*

- Constructed a dual-sided driver booking mobile app featuring live GPS tracking via Google Maps, dynamic tiered fare computation, and a REST API backend with JWT authentication and push notifications.

Handwrite (2024 – 2025): Founded a micro-SaaS platform serving **180+ organic users** converting digital text into realistic handwritten PDFs (1,200+ pages rendered, Razorpay credit packs); concluded operations after analyzing server canvas compute economics versus student pricing tolerance.

Freelance Web Engineering (2023 – 2024): Engineered 3 client sites (**ATM Promo**, **Prime Financials**, **Barter Tech**), achieving 95+ Core Web Vitals, improving load speeds by 40%, and establishing high-converting B2B lead capture funnels.

Education

KJ Somaiya Institute of Technology — B.Tech in AI & Data Science *Current CGPA: **8.7 / 10.0*** **2025 – 2028**
Shri Bhagubhai Mafatlal Polytechnic — Diploma in Information Technology *Aggregate: **85.73%*** **2022 – 2025**
Parle Tilak Vidyalaya — Secondary Education (Class 10) *Aggregate: **93.50%*** **2010 – 2020**

Certifications & Leadership

Certifications: Claude AI Fluency, Claude AI Fluency for Students, Claude for Small Businesses, AI & ML Specialization, AI Agents Workshop, KJSIT Campus Hackathon, Claude Vertex AI

Leadership & Beyond: Founder at Velaar & Handwrite; Peer mentor in React Native & Git; Languages: English, Hindi, Gujarati, Marathi
