Profile Summary

Full-stack and AI engineer specializing in production web, mobile, and AI systems. Hands-on experience architecting RAG pipelines with Supabase pgvector, integrating LLM APIs, and engineering cross-platform mobile applications in React Native and Flutter. Founder of Velaar (AI EdTech copilot) and creator of Handwrite (180+ organic users).

Technical Skills

Core Engineering Stack: React, Next.js, React Native, TypeScript, Python, Node.js, Express, Supabase (pgvector), PostgreSQL, Firebase

Tools & Frameworks: Flutter, Dart, Tailwind CSS, REST APIs, Git/GitHub, Docker, Redis, Google Cloud, MySQL, C/C++, Java, WordPress

Professional Experience

SunMac Solar (Ecomac Energy Pty Ltd) [Offer Letter] *Founder's Office Intern | Sep 2026 – Present*

- Architected an AI Lead Intelligence platform (ABN Lookup, Google Maps satellite rooftop detection, Supabase pgvector semantic search) to generate tailored outreach emails; redesigned the SunMac Solar site (*sunmacsolar.com.au*) in Next.js, improving load performance by 45% and SEO.

Optisoft Vision [Recommendation Letter] *React JS Software Developer | Jun 2024 – Aug 2024*

- Engineered 12+ modular React/Vite components across EyeCloud, Lensoui, and HelpHub portals; integrated REST APIs with async state caching, and resolved 25+ cross-browser defects across agile sprint cycles.

Vinayak Soft Solutions [Recommendation Letter] *App Developer Intern | Nov 2024 – Mar 2025*

- Built cross-platform React Native apps: an offline-first restaurant POS processing 200+ daily orders and a real-time sales analytics dashboard for 15+ retail businesses.

WebGyor Technologies [Recommendation Letter] *WordPress Developer | Jun 2022 – Aug 2022*

- Programmed responsive client portals (Portfolio Analyst, Employee Track) managing 500+ records; reduced page load times by 35% via caching optimizations.

Ayika Foundation [Offer Letter] *IT Intern | Aug 2022 – Aug 2023*

- Administered digital infrastructure and content distribution workflows for environmental campaigns reaching 10,000+ active participants.

Technical Projects

Velaar – AI Educational Platform *Live Demo | Jan 2025 – Present*

- Implemented an AI teaching assistant using the Gemini API and Supabase pgvector RAG to generate syllabus-grounded lesson plans and assessments with streaming responses under 1.8s; QR attendance system validating 100+ students in under 30 seconds with role-based JWT auth.

Hasslefree Drive – On-Demand Driver Booking App *Live Demo | Aug 2024 – Oct 2026*

- Dual-sided mobile app with live GPS tracking via Google Maps, dynamic tiered fare computation, and a REST API backend with JWT authentication and push notifications.

Remora – Contact-Free Heart Rate Monitor *Live Demo | Jun 2026 – Oct 2026*

- College IVP project extracting live heart rate from webcam video via facial skin pixel colour shifts; achieved 98.9% pulse detection accuracy benchmarking 3 rPPG algorithms across 12 real-time telemetry metrics. Built with React 19, FastAPI, and MediaPipe.

Handwrite – Handwritten PDF Generator *Live Demo | Nov 2025 – Sep 2026*

- Founded a micro-SaaS serving **180+ organic users** converting typed text into realistic handwritten PDFs (1,200+ pages rendered, Razorpay credit packs); shut down after evaluating server compute costs vs. student pricing tolerance.

Freelance Web Engineering – Client Platforms *2023 – 2024*

- Engineered 3 client sites (**ATM Promo**, **Prime Financials**, **Barter Tech**), achieving 95+ Core Web Vitals and improving load speeds by 40%.

Education

KJ Somaiya Institute of Technology — B.Tech in AI & Data Science *Current CGPA: **8.7 / 10.0*** **2025 – 2028**
Shri Bhagubhai Mafatlal Polytechnic — Diploma in Information Technology *Aggregate: **85.73%*** **2022 – 2025**
Parle Tilak Vidyalaya — Secondary Education (Class 10) *Aggregate: **93.50%*** **2010 – 2020**

Certifications & Leadership

Certifications: Claude AI Fluency, Claude AI Fluency for Students, Claude for Small Businesses, AI & ML Specialization, AI Agents Workshop, KJSIT Campus Hackathon, Claude Vertex AI

Leadership & Beyond: Founder at Velaar & Handwrite; Peer mentor in React Native & Git; Languages: English, Hindi, Gujarati, Marathi
